

Health and Safety Policy

EMC is committed to the prevention of injury and ill-health occurring to any person as a result of its business activities and to meet or exceed all relevant health and safety legislation including of any other requirements to which we subscribe, including those of trade organisations where applicable and customers.

This policy is applicable to all employees, contractors, visitors, and others who might be affected by our operations. It encompasses all business operations, locations, and activities undertaken by EMC.

We will deliver continual improvement by:

- Setting health and safety objectives and targets
- Monitoring and reviewing set objectives and targets
- Communicating our policy to all persons working for or on behalf of the company, including contractors, to make them aware of their individual health and safety responsibilities.

Our Health and Safety Policy is available to interested parties upon request.

Our policy will be reviewed annually or in response to any material change to the EMC management system.
